MANAGEMENT

Training Guide 2016

CONSULTING

We address each client's specific SHE legal concerns.

AUDITING

To assess the extent of the facility's compliance with applicable legislation.

TRAINING

The training courses we offer our clients are presented in-house.

REGISTERS

We help your business achieve compliance to legislation.

Legricon presents in-house courses, delivered on the client's premises, eliminating excessive logistical costs and arrangements.

All Legricon trainers are qualified and experienced lawyers with specific expertise and specialisation in occupational health, safety and environmental law, collectively amounting to more than 100 years' experience.

Centre for Business Management

PROGRAMME IN SAFETY MANAGEMENT (72435)

This course focuses on the science of Safety Management and the safety responsibilities of both line managers and staff safety practitioners. This programme introduces line managers and safety practitioners to the very basics in safety management. Such basics comprise the sciences of safety management and the roles of line and staff functionaries pertaining to safety risk assessment, safety management in industry and the analysis of safety incidents.

The focus and contents of the programme is unique in the sense that it prepares both managers and safety practitioners for performing their roles and functions on a professional and scientific basis. The programme focuses on meeting the needs of line managers and staff safety practitioners in achieving their legal responsibilities and professional accountability in making the workplace and the work procedures as safe as possible for all involved.

MODULES:

- Introduction to Safety Management (PSMP015)
- Assess Safety Risk (PSMP026)
- Manage Safety in the Workplace (PSMP038)
- Analyse Safety Incidents (PSMP049)

REGISTRATION DATES

December - February

FEE:

R6 600

COURSE DURATION:

12 Months
NQF level 6, Total 48 credits

ADMISSION REQUIREMENTS:

A Senior Certificate, equivalent qualification or appropriate experience.

CONTACT PERSON:

Mr NJF van Loggerenberg
Email: psmp@unisa.ac.za
Tel: 012 352 4378

PROGRAMME IN ADVANCED SAFETY MANAGEMENT (76914)

This course focuses on a broader view of Safety Management and the safety responsibilities of both line managers and staff safety practitioners. This programme investigates the advanced elements of safety management. These elements include the management of safety culture, the role and importance of safety supervisors, system safety engineering and the system safety programme plan; the importance of managers in safety and a more advanced understanding of hazards.

MODULES:

- Managing Safety Culture (APSM01N)
- Safety Supervisor (APSM02M)
- Safety Systems (APSM03O)
- Design for Safety (APSM04P)

REGISTRATION DATES

December - February

FEE:

“Education is the most **powerful weapon** which you can use to **change the world.**” – *Nelson Mandela*

In South Africa, each economic sector is represented by a Sector Education and Training Authority (SETA) – which provides a framework for the development of skills in these workplaces. The current 21 SETAs were licensed by the Minister of Higher Education and Training for five years – from 2011 to 2016

The Wholesale and Retail SETA's website provides a good definition of the role of the SETAs. It states: “The functions and responsibilities of the SETAs are set out in Chapter 3, section 10 of the Skills Development Act, 1998, which are to:

- Develop and implement a sector skills plan. This is a plan to describe the trends in each sector, the skills that are in demand and to identify priorities for skills development.
- Develop and administer learning programmes. These include skills programmes and learnerships.
- Support the implementation of the National Qualifications Framework (NQF). The NQF is the framework, based on eight levels, on which any qualification or learning outcome can be registered.
- Undertake quality assurance on provision of learning in line with the requirements of the Quality Council for Trades and Occupations, which include the following:
 - Accredit education and training providers;
 - Monitor provision to ensure that programmes are being followed;
 - Register assessors;
 - Collaborate with other education and training quality assurers.

- Disburse levies collected from employers in their sector. Employers pay one percent of their salary payroll to the South African Revenue Service on a monthly basis. Most of this contribution (80 percent) is distributed to SETAs and is allocated to administration costs, as well as grants, to be claimed back by companies.”

We highlight all of the various SETAs and many companies that can aid individuals, as well as organisations, on their various training and development quests...

Workplace accidents happen – First Aid will make the difference

Workplace accidents will happen. When your employees complete a comprehensive **St John First Aid** course they will be able to:

- **recognise** when first aid is needed
- **provide** first aid at an emergency scene
- **know** when more qualified emergency medical assistance is necessary

We know the importance of having proper, professional skills in an emergency and that's why at St John we continually revise our courses to ensure they are:

- learner centred
- suitable for employees with limited reading and writing skills
- supported by on-screen presentations and lots of hands on practice
- accredited with the Department of Labour
- accredited with the Health and Welfare SETA.

Our range of First Aid training courses include:

- First Aid Level 1 – Emergency Level
- First Aid Level 2 & 3 – Standard Level
- CPR / AED Courses
- Basic Life Support (BLS) *Accredited with the Resuscitation Council of SA*
- Fire Safety
- Health & Safety in the Workplace

Contact us to book your first aid training course today:

DECISION NUMBER : C.I.481

MEMBER OF IOSM

HASLAC IS A FULLY ACCREDITED EDUCATION AND TRAINING SERVICE PROVIDER WITH THE HWSETA ETQA
DECISION NO: HW592PA05000129

TRANSPORT EDUCATION AND TRAINING AUTHORITY

The Transport SETA was formed on the backbone of five former industry training boards (ITBs): namely the Aerospace, Maritime, Road Freight, Road Passenger and Transnet. These ITBs were dissolved at the same time as the establishment of the Transport SETA.

In response to current and emerging trends, both in South Africa and globally, NOSA has developed a number of new training courses. The courses are aimed at improving and enhancing our clients' compliance to both legal and best practice standards. These courses have been developed by NOSA's Research and Development Team and are an indication of the investment that NOSA continues to make in its products.

- **Root Cause Analysis Training Course**
- **HSE in Mechanised Mining**
- **Psychosocial Wellness**
- **Fatigue Management**
- **Introduction to Globally Harmonised System (GHS)**
- **Advanced SAMTRAC**
- **SAMTRAC Construction**

For more information on our new products, email us on info@nosa.co.za or visit www.nosa.co.za

In addition, NOSA is also proud to announce the launch of its blog. The NOSA blog is aimed at providing our extensive client base with the latest developments in occupational health and safety trends globally. NOSA's international footprint allows us to report on issues facing the industry in markets such as South America, Asia, Middle East, Africa and Australasia. In addition, you will be kept abreast of the latest product updates within NOSA, along with accessing regular information on NOSHCON. The industry is changing at a rapid rate and subscribing to the NOSA blog on the NOSA website will ensure that you are kept abreast of its developments.
